

PrePrimitive

```
graph BT; A["Primitive< T, args >"] --> B["PrePrimitive"]
```

The diagram consists of two rectangular boxes. The top box is white with a black border and contains the text "PrePrimitive". The bottom box is gray with a black border and contains the text "Primitive< T, args >". Two blue curved arrows originate from the top edge of the gray box and point upwards to the bottom edge of the white box, indicating a transformation or mapping from the primitive type to the pre-primitive type.

Primitive< T, args >
